

Terminal Bushings

- ◆ Small nylon receptacles for low cost, insulated quick connection or disconnection of your wires thru panels or housings.
- ◆ Typical uses are data processing and vending machines, motors, power supplies and controls.
- ◆ Internal brass male terminals are available in 2 sizes to mate with either 3/16" or 1/4" standard female Quick-Connectors. Both sizes are available in solder, double-male, and crimp configurations.
- ◆ Available in eight colors for color-coding.
